Azerbaijani Azerbaijani keyboard layout

Azərbaycanca

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

The Windows Azerbaijani Latin keyboard: ü is on the W key, ö and ğ right of P, ı and ə right of L, and ç and ş on the comma and period keys. It has no w, as the alphabet has none.

Best for: People in Azerbaijan, or anyone with an Azerbaijani keyboard.
