Bulgarian Phonetic keyboard layout

Фонетична

The large character is typed by the key alone. Hold **Shift** for the one at top right. The small grey letter is the English key it sits on.

The phonetic layout: letters sit on the English keys that sound like them. ч is on Q, ш on W, ъ on Y, ж on X, в on V and ц on C. я and щ are on the bracket keys, ю left of 1 and ь on the backslash key.

Best for: People who know QWERTY, which is how many Bulgarians type.
