Chinese (Traditional) Zhuyin keyboard layout

注音

The large character is typed by the key alone. Hold **Shift** for the one at top right. The small grey letter is the English key it sits on.

The standard Zhuyin (Bopomofo) layout used in Taiwan: 1 is ㄅ, Q is ㄆ, A is ㄇ, Z is ㄈ. Type the symbols, end with a tone key if you like, and press Space.

Best for: People who learned Zhuyin, as most do in Taiwan.
