# Croatian Easy accents keyboard layout

Lagani naglasci

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

Your English keyboard as it is. US-International has no Croatian letters, so tap č, ć, đ, š and ž in the letter bar, or type plain letters and let smart accents add them.

Best for: Anyone with an English keyboard who writes some Croatian.
