Czech Czech (QWERTY) keyboard layout

Čeština (QWERTY)

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

The same Czech letters on the number row, with Y and Z where English keyboards have them. Popular with programmers and people who also type English.

Best for: People who want the Czech letters without the swapped Y and Z.
