Czech Czech (QWERTZ) keyboard layout

Čeština (QWERTZ)

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

The Czech keyboard most people in Czechia use: QWERTZ, with ě š č ř ž ý á í é on the number row (the digits need Shift), ú right of P, and ů right of L. Other háček and čárka letters come from the dead keys beside Backspace.

Best for: People who learned to type in Czechia, or have a Czech keyboard.
