Dhivehi Phonetic keyboard layout

ދިވެހި

Q Shift

Key

AltGr

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

Windows Divehi Phonetic. Letters sit on English keys that sound alike: ށ on K, ދ on M, ސ on N. Vowel signs (fili) are on the vowel keys and A, and Q types the sukun ް.

Best for: Anyone who knows an English keyboard and wants to type Thaana straight away.
