Georgian QWERTY keyboard layout

QWERTY

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

Georgian QWERTY. Letters sit on the English keys that sound like them, and Shift gives seven more: თ on T, ჭ on W, ღ on R, შ on S, ჟ on J, ძ on Z and ჩ on C.

Best for: Most people: it is what Georgian phones and most computers use.
