Hebrew Phonetic keyboard layout

פונטית

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

Letters sit on the English keys that sound like them: ש on S, ר on R, ל on L. Shift gives the final form on the keys that have one: ם on Shift+M, ן on Shift+N, ך on Shift+K, ף on Shift+P, ץ on Shift+C.

Best for: People who know QWERTY and do not want to learn the Israeli layout.
