Inuktitut Naqittaut keyboard layout

ᓄᖅᑭᑕᐅᑦ

Q Shift

Key

Shift+AltGr AltGr

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

Windows Naqittaut, with syllabics on the plain keys: Δ on W, ᐅ on S, ᐊ on X, so each column is one consonant (Λ > < on Shift). The finals ᖁ < ᖅ ᑦ ᖏ ᓪ ᓗ ᓐ ᓯ are on the number row. AltGr gives the long vowel: AltGr+W types Δ̇. Windows keeps these behind Caps Lock; here they are the plain keys.

Best for: Everyone who writes Inuktitut in syllabics.
