# Kyrgyz Standard keyboard layout

Стандарттык

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

Windows Kyrgyz. It is the Russian layout with AltGr added for Kyrgyz's three own letters, ң, ө and ү.

Best for: Anyone who types Kyrgyz on Windows and wants the same keys here.
