Lao Standard keyboard layout

มาดตะถาม

Q Shift

Key

AltGr

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

The standard Lao layout from Windows. The number row holds letters, Shift gives digits and rarer signs, and AltGr gives Lao digits.

Best for: Everyone: it is the layout Lao computers use.
