Latvian Latvian (QWERTY) keyboard layout

Latviešu (QWERTY)

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

QWERTY with AltGr: hold the right Alt and press the plain letter, so AltGr+A types ā, AltGr+S š, AltGr+G ģ and AltGr+N ņ.

Best for: Most people in Latvia: this is the layout nearly every computer there uses.
