Latvian Latvian keyboard layout

Latviešu

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

The older Latvian layout with its own letter order: ū on Q, š on A, ņ on Z, ī on C and ā on M. Keys are placed by how often letters are used, not by English.

Best for: Touch typists who learned the Latvian ergonomic layout.
