Nepali Nepali Romanized keyboard layout

नेपाली रोमनाइज्ड

Q	Shift
Key	

The large character is typed by the key alone. Hold **Shift** for the one at top right. The small grey letter is the English key it sits on.

The Romanized layout from Madan Puraskar Pustakalaya and Language Technology Kendra. Each key types the Nepali character that sounds like its English letter: क on K, म on M and न on N. Vowel signs are on A, I, U, E and O. Nothing is converted: what you press is what you get.

Best for: Anyone who wants keys that follow English letters and exact control
