Nepali Traditional keyboard layout

परम्परागत

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

The traditional Nepali typewriter layout, as built into Windows: क on S, म on D, न on G and ा on F. Shift with a consonant key types its half form.

Best for: Typists in Nepal who learned on a typewriter or in an office, and anyone who already knows the Nepali Traditional layout.
