Romanian Easy accents keyboard layout

Accente ușoare

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

Your English keyboard with US-International accents: ^ then a for â, ^ then i for î. It has no ă, ș or ț, so tap those in the letter bar, or let smart accents add them.

Best for: Anyone with an English keyboard who writes some Romanian: learners and families abroad.
