Russian Phonetic keyboard layout

Фонетическая

The large character is typed by the key alone. Hold **Shift** for the one at top right. The small grey letter is the English key it sits on.

The phonetic layout: letters sit on the English keys that sound like them, а on A, с on S, т on T. я is on Q, в on W, ы on Y, ж on V and ь on X. ш and щ are on the bracket keys, ю left of 1, э on the backslash key and ч on the equals key. ё is Shift+3 and ъ is Shift+5.

Best for: People who know QWERTY and do not want to learn ЙЦУКЕН.
