The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

Devanagari InScript, the Government of India standard that Windows uses for Sanskrit, with ऽ, ॐ, ॠ and the dandas. Vowel signs are on the left of the keyboard and consonants on the right.

Best for: Anyone who types Hindi or Marathi on InScript: the keys are the same, with Sanskrit's extra signs on AltGr.
