Scottish Gaelic Scottish Gaelic keyboard layout

Gàidhlig

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

The Windows Scottish Gaelic keyboard, laid out like a UK one. The key left of 1 is the grave: press it, then a vowel, for à è ì ò ù. We changed one thing: the ' key types an apostrophe straight away, for a' dol.

Best for: People in Scotland, or anyone with a UK keyboard.
