Serbian Standard keyboard layout

Стандардна

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

Windows Serbian (Cyrillic). љ is on Q, њ on W, j on J, џ on X, ш and ђ on the bracket keys, ч and ћ right of л, and ж on the backslash key.

Best for: Anyone who types Serbian Cyrillic on Windows and wants the same keys here.
