Slovak Slovak (QWERTY) keyboard layout

Slovenčina (QWERTY)

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

The same Slovak letters with Y and Z where an English keyboard has them. Handy if your hands know QWERTY.

Best for: Slovak writers used to QWERTY, such as programmers.
