Tibetan Standard keyboard layout

བོད་མཆོག

Q	Shift
Key	
Shift+AltGr	AltGr

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

Windows Tibetan (the standard from China): ཀ on C, ཁ on V, ག on K, ང on G, and the vowels ི ེ ོ on I, U, E and O. The tsheg ་ is on J and the shad ། on the ' key. M is the stacking key: M, then a letter, types it below the one before, so ཀ, M, ར makes ཀྲ.

Best for: Everyone who writes Tibetan.
