Turkmen Turkmen keyboard layout

Türkmençe

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right. The small grey letter is the English key it sits on.

The Windows Turkmen keyboard: ä on Q, ü on X, ç on C, ý on V, ň and ö right of P, ş by Enter and ž left of 1. The alphabet has no q, x, c or v, so these keys are free.

Best for: People in Turkmenistan, or anyone with a Turkmen keyboard.
