# Ukrainian Standard keyboard layout

## Стандартна

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

Windows Ukrainian (Enhanced). і is on S, ї right of x, є on the quote key and the apostrophe left of 1. ґ is AltGr+U, on the г key.

Best for: Anyone who types Ukrainian on Windows and wants the same keys here.
