Yoruba Yoruba keyboard layout

Yorùbá

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

The Windows Yoruba keyboard: \ then e types ẹ, \ then o ọ, and \ then s ṣ. ' then a vowel adds a high tone, and [then a vowel a low tone. For a tone on ẹ or ọ, type the letter, then AltGr+] for high or AltGr+[for low: we added those two keys, as Windows has no way to type both marks.

Best for: People in Nigeria and Benin, or anyone who learned this layout.
